Facts Show For Themselves.

Let's see about this " largest stock " business. Every. body claims it.

There certainly is advantage in variety. We recogn nize it so fully that we give five times the space to our Boys' and Children's Department of any store in town And show at least five times the right kind of stock.
"Right kind"—emphasis on that.

Never was a season when we were so well equipped.

Novelties were never so numerous. Qualities were never so good. Prices are where no purse will fall short of reaching

satisfaction. In other words, we have lifted Boys' Clothes out of the rut-put style into 'em-put service-giving value into 'em. Put our reputation into 'em-and that

doesn't perch except on perfection. The boy who's going away to school must be bought

for right off. And why not the others? No brag about our claims. No exaggeration—see if there is—of quality or quantity. We don't say satisfaction or money back thoughtlessly. But meaningly.
